EXTENSION

*To the buyers:*

# Welcome to the 2019 Jamestown Ram Sale!

The North Dakota Lamb and Wool Producers Association has made every attempt to ensure a high-quality offering of purebred and commercial rams.

North Dakota Lamb & Wool  
Producers Association

1. All rams have been sifted by a committee of three breeders and a veterinarian. Rams have been Elisa tested within 30 days of sale or are from current Brucella Ovis-free flocks.
2. All rams must originate from flocks that have been inspected and found free of foot rot.
3. Minimum weight and scrotal circumference:
  - Yearlings – 220 pounds and 32 centimeters
  - Lambs – 120 pounds and 30 centimeters
4. All animals must be bred and owned by the seller.
5. Registration papers and the cost of transfer are strictly between the buyer and seller.
6. All rams will be guaranteed breeders (ram lambs are not subject to guarantee in year of purchase). The guarantee is between the buyer and seller.
7. Health papers will be available for out-of-state buyers.
8. The catalog is arranged in sale order, with rams first, followed by ewe entries.
9. Phone bids will be accepted by the Sale Committee and NDLWPA board members. See numbers below.

Please enjoy viewing this year's consignments and visiting with your fellow sheep producers.

Sincerely,

Lot 36 Flock No. J835-RR Yearling ram 2/5/18 Triplet  
Sire: Deckert F663, dam: Deckert 414. Dam is top producer, with 200% lifetime lamb crop. You will like this ram. Small frame but packs a lot of meat. Sire and dam are fall born.

Lot 37 Flock No. F852RR Fall ram lamb 10/1/18 Triplet  
Sire: Legacy 1748, dam: Deckert 428. Dam is fall born and consistent fall lamber. Birth weight: 10 pounds and wean weight: 71 pounds. Thick-made ram.

Lot 38 Flock No. F861 QR Fall ram lamb 10/4/18 Twin  
Sire: Legacy 174 – twin and dam: Deckert 354 – twin. Dam has 200% lifetime lamb crop. Birth weight: 13 pounds. Wean weight: 70 pounds.

Our Hampshire consignment this year features rams from three of our most consistent producers. J835 has a sire and dam that were fall born, something you may want to consider in your selection. F582 dam is also fall born and has a sister who fall lambs and had triplets last fall. If you would like these rams registered, you will need to contact me. Otherwise, they will not automatically be registered. Our rams have been on pasture and receiving some grain. We will try to post pictures on Facebook: Deckert Flocks. Thank you for considering a Deckert sheep. Next year, we will celebrate 50 years of raising Hamps.

Lot 89 Pen of 5 fall ewe lambs Sept./Oct. 2018

Lot 90 Pen of 5 fall ewe lambs Sept./Oct. 2018

*We plan to bring two groups of five Dorset fall-born ewe lambs. These females would make a great set to start a fall lambing program. They are backed by proven fall-lambing genetics. You could breed these ewe lambs this fall for spring lambs or hold them over and expose them in April for fall lambs. We will sort these groups of five by sires, giving the new owner five paternal half sisters. (Not eligible for registry.)*

Lot 91 Pen of 5 spring ewe lambs Feb. 2019

*This group of five spring-born Dorset ewe lambs will be a great addition to anyone's flock. They will be thick, stout-made ewe lambs. Furthermore, these lambs will carry fall lambing genetics. The pen mates to this group of five will be exposed to rams in April for fall lambs. We've had great success moving our spring-born ewe lambs into our fall lambing program. Again, if you'd like to start fall lambing, this set of females could help you get there. (Not eligible for registry.)*
