EXTENSION

To the buyers:

Welcome to the 2020 Jamestown Ram Sale!

The North Dakota Lamb and Wool Producers Association has made every attempt to ensure a high-quality offering of purebred and commercial rams.

1. All rams have been sifted by a committee of three breeders and a veterinarian. Rams have been Elisa tested within 30 days of the sale or are from current Brucella Ovis-free flocks.
2. All rams must originate from flocks that have been inspected and found free of foot rot.
3. Minimum weight and scrotal circumference:
 - Yearlings 220 pounds and 32 centimeters
 - Lambs 120 pounds and 30 centimeters
4. All animals must be bred and owned by the seller.
5. Registration papers and the cost of transfer are strictly between the buyer and seller.
6. All rams will be guaranteed breeders (ram lambs are not subject to guarantee in year of purchase). The guarantee is between the buyer and seller.
7. Health papers will be available for out-of-state buyers.
8. The catalog is arranged in sale order with rams first followed by ewe entries.
9. Phone bids will be accepted by the Sale Committee and NDWLPA board members. See numbers below.

Please enjoy viewing this year's consignments and visiting with your fellow sheep producers.

Sincerely,

- David Brown, Sale Committee.....701-840-7598

Lot 1	Fall ram lamb	Sept. 2019	Single
Lot 2	Spring ram lamb	Jan. 2020	Twin
Lot 3	Spring ram lamb	Jan. 2020	Twin

These rams will be stout, thick-made consistent with the quality we have always brought to the sale. Their dams excel in maternal traits and these rams have gained well postweaning. We are hoping to offer a fall-born ram for those who want to start a fall lambing or accelerated lambing program. Watch our Facebook page – A & L Ranch – for more information and pictures.

Lot 6 Flock No. F950 Fall ram lamb 9/22/19 Twin

This is a great opportunity to purchase a full blooded Ankeny ram. This ram is the result of my Ankeny ram mated to an Ankeny ewe. Ankeny sheep are very easy keepers and long lived. They are Australian bloodlines. We will post pictures to our Facebook page.

Lot 7 Flock No. F757RR Fall ram lamb 9/23/19 Twin

This ram is a meaty one. Be sure to take a rear view of this ram and you will be impressed. His dam is an Ankeny and his sire is our Virginia Tech ram.

Lot 8 Flock No. F756 RR Fall ram lamb 10/5/19 Twin

This ram is sure to bring you back for a second look. His mother is sired by a ram sold to Curt Stanley. I kept breeding rights and got some good-producing daughters. The sire of this ram is a Virginia Tech ram.

Lot 15 Flock No. W964 RR Yearling ram 1/25/19 Twin
W964 carries strong fall lambing genetics. Great disposition on this ram. Easy to handle but not aggressive, just the way you want your ewes to be. Sired by Hubbard 12-300TW whose mother fall lambs regularly.

Lot 16 Flock No. F933 Fall ram lamb 10/05/19 Twin
F933 has a great side profile. His mother is a consistent fall lamber and sire is Hubbard 12-300TW.

Lot 17 Flock No. W044 Spring ram lamb 1/26/20 Twin
Good ram to use on your ewe lambs. Sure to be an attractive ram as he grows and matures.

We will try to post pictures on Facebook: Deckert Flocks. Thank you for considering a Deckert sheep, have been raising Hamps for 50 years.

Lot 19 Flock No. 20008-RR Spring ram lamb 1/21/20 Twin

We have been raising Hamps for more than 30 years, striving to produce fast-growing, functional sheep that will work in purebred and commercial flocks.

These lambs represent that goal, being sound, fast-gaining sheep that have good Hamp breed character. They will have performance data available. We will post pictures prior to the sale on our Facebook page (James Valley Stock Farm). Please contact us in advance if you have questions. Lambs are sired by either our Baa Baa Acres or Scheifelbein studs that both have worked well for us.

Birth weight: 8 pounds. This ram is the first NDSU Easycare ram offered for public sale. The progressive breeding program consists of one-quarter White Dorper, one-quarter Royal White and one-half Romanov, with a focus on prolificacy and early growth. This triplet-born ram was a standout growth ram with exceptional 60- and 120-day adjusted weights among our fall 2019 lambs. His 4-year-old dam has a lifetime 300% lamb crop and the Romanov ewes at the NDSU Animal Nutrition and Physiology Center average a 260% fall-born crop.

Lot 63 Pen of five fall ewe lambs Sept./Oct. 2019

We plan to bring two groups of five Dorset fall-born ewe lambs. These females would make a great set to start a fall lambing program. They are backed by proven fall lambing genetics. You could breed these ewe lambs this fall for spring lambs or hold them over and expose them in April for fall lambs. This group of five are sired by the same ram, giving the new owner five paternal half-sisters. (Not eligible for registry.)

Lot 64 Pen of three spring ewe lambs Spring 2020

This group of three spring-born Dorset ewe lambs will be a great addition to anyone's flock. These lambs carry fall lambing genetics. We have had great success moving our spring-born ewe lambs into the fall lambing program. If you would like to start fall lambing, this set of females could help you get there. (Not eligible for registration.). Performance data and record available on sale day. Watch the NDSU Sheep Unit Facebook page for pictures and updates.
